NUMBER 50.

SENATOR GOEBEL

Addresses a Vast and Enthusiastic Audience at Mt. Sterling.

An Eloquent and Powerful Argument on the Issues of the Campaign. -The L & N and the Trusts Aim to Control the State.

Mr. STERIING, Ky., Aug. 21 .- Fully 3,500 people, packed as close as they could stand, to-day heard Senator Jo Blackburr and nominee Goebel upon the issues of the campaign.

The speeches undoubtedly had excellent effect. Senator Goebel was never in better voice, and the evident sympathy of the crowd with all he said fairly inspired him. It was by far the best speech he ever made, and the audience was held spell bound. He said:

"Fellow Democrats: The most active opponents of the Democratic ticket to-day, my fellow citizens, are the L. & N. Railroad, the American Book Trust and the American Tobacco Trust. They are engaged in an effort to control the state government of Kentucky. Your platform adopted at Louisville is a defiance of the efforts of these corpora-

tions. (Applause.)
"You are now to determine whether you, by your duly executed servants, or the L. & N. railroad, the American Book Trust and the American Tobacco Trust are to govern Kentucky. (Ap-

plause.)
"The L. & N. Co. entered the campaign early. They failed to dominate the Louisville Democratic convention, and in the letter of President Smith, of that company, they have entered the campaign, and will only desist upon the making of a pledge that the Legislature of Kentucky will do nothing that they object to. Now, the first time in years, corporate greed has thrown off the mask and entered upon an open effort to manage the affairs of

a free people.

"Hon. John Young Brown, the alleged nominee of an alleged convention at Lexington (applause), said in accepting his alleged nomination: 'Go home heard here. Did he expect the delegates to that convention to go home what they really heard—the convention of the Louisville & Nashville

bur F. Browder, the lobbyist of the L. & N. Railroad. head plause.) That they saw there William H. Mackoy, chairman of the Palmer and Buckner committee in my county? Did he expect them to tell their neigh-bors that Basil Duke, of the L. & N. Railroad Company, was managing that convention, with the assistance of John H. Whallen, of Louisville, who helped the Republican County Judge of Jefferson county to so name the Louisville election officers in 40 precincts that not a single election officer was for W. J. Bryan? (Applause.)
"Of all men it doesn't lie in the mouth of John Young Brown to say

aught against the Democratic ticket at Louisville. (Applause.) He attempted, six days after what he objected to ing worn to a considerable extent, but had been done at Louisville, to get for its efficacy in reducing thirst is on the himself the same nomination which was given to me." (Prolonged cheers.) Senator Goebel then read an extract

from a Louisville paper which was pub lished upon the personal application of Mr. Brown, who hoped that the convention might thereby be stampeded He told how Mr. Brown had asked Mr. Charles C. McCnord to go up to the

Courier-Journal office and request the publication of an anonymous article stating that there was "much talk about John Young Brown as a compromise candidate."
"He did everything he could," said

Mr. Goebel, "to secure the nominatian which was given to me. The cause of his discontent is much plainer than the motive for his bolt. (Cheers). Now, my fellow citizens, the fight before you is no more and no less than a repetition of the fight of 1896." (Cries of "That's right.")
Senator Goebel then reviewed the

effort of the L. & N. to defeat the Democratic ticket now as in '96 by the free circulation of subsidized newspa-"We won't read them," shouted man in the audience, and the crowd

Senator Goebel said that the whole purpose of anti-Democratic effort was to divide the Democratic vote and secure the election of the Republican ticket, the continuation of pro-corporation rule and the defeat of Bryan. There was much cheering and applause when Bryan's arready and applause when Bryan's arready are the state of the sta when Bryan's name was spoken. The Republican party, said Senator Goebel, is the political agent of the money power and trusts. It hopes to carry Kentucky this year as well as next year solely by the use of tremendous corruption, funds ous corruption funds. (A yell of "That's no lie.")

THE SCHOOL BOOK TRUST.

"Now, my friends," said Senator Joebel, "I want to say a few words to you about the School Book Trust. I observe that Mr. Grinstead, the chief obbyist of the School Book, took part n this bolting convention. (Cheers.)
Now I want to tell you a simple fact.
Certain school books are in use in Kenucky and in Indiana. They are exactly the same in both states. There s not the difference of a dot or punctuation mark on them, yet they are sold for 25 per cent. more in Kentucky than in Indiana. The reason for this difference in price is that Kentucky as not passed a law regulating that

price of school books and Indiana has. In Indiana such a law has been on the statute books for ten years, and it has been a satisfactory law in every respect. In my opinion, if anything should be made as free as possible it should be the opportunity of every poor child in Kentucky to get an education. (Applause)

poor child in Kentucky to get an education. (Applause.)

"Fellow Democrats, the Republican party should be judged not by what it says but what it does." (Applause.)

Senator Goebel recalled the introduction of the Chinn school book bill. He said it had been opposed by Moquet who participated in the "bastard convention," at Lexington (laughter and applause), by George Alexander and by James C. Gillespie. (Cheers.) "That bill," continued Senator Goebel, "would have saved the parents of school children in Kentucky the enormous sum of \$700,000 per year." (Applause.)

(Applause.)
The speaker then took up the McChord railroad bill, classifying it as a Democratic measure, denounced by the Republican convention and ignored by the railroad covention at Lexington He explained the provisions of the Mc-Chord bill and cited the fact that Geo. Alexander and James C. Gillespie, who attended the bolters' convention had voted on this bill. "Not with the decree of the Democratic caucus, but

with the veto of the Republican Gov-ernor." (Cheers. Senator Goebel went into details in explaining the railroad exactions which the McChord bill will correct. The crowd listened with much interest,

The crowd listened with much interest, especially to the explanation as it applied to local freight rates.

Senator Goebel concluded with a clear-statement of the issues confronting Democrats. "You are to decide," said he, "if Republican rule shall be continued indefinitely, if Kentucky's vote shall go to McKinley or to Bryan, if J. C. S. Blackburn shall go to the senate or some Republican or Democratic renegade if imperialism shall take the place of Democracy."

BUGS ON THEIR COLLARS.

Fashionable Men Now Wearing Queer Devices in Jewelry on Their Neckwear.

When somebody starts a new idea in wearing apparel or any other matter which interests humanity, the idea is seized upon with avidity. This is especially true of man, for the only changes he can encompass are with reference to the cut of coat or trousers. He must appear in a suit of sables in the evening with the same robbery of the skirts of the coat which marked the dawn of 1812. So when anything new does come up it is apt to receive fer-

Bugs of the most horrible and fear-inspiring appearance were drawn with forcep-like beaks, apparently casually lingering on the collar with intent to sample the life fluid of the wearer.

The great advantage this device possessed was that it inspired the friends of the wearer to make vain efforts to remove the bug. First the rescuer would make wild waves of his hands with a view-to scaring the bug. But this failing he would make a frantic grab and encounter merely the glossy stiffness of the collar. Then he would wane.

PAY FOR THE SOCIETY NEWS.

Those Whose Names Get in Print in London Must Pay Big Prices for the Notice.

All the personal paragraphs and society news that appear in the London papers are paid for except that which relates to the royal family, the nobility and the diplomatic corps, says the Philadelphia Times. If an ordinary citizen gives a ball or marries off his daughter or entertains the prince of Wales at dinner he is compelled to pay for his glory. Mrs. John W. Mackay, Mr. William Waldorf Astor and other ordinary persons, native or foreign, in London society pay for every notice they receive in the newspapers. Sometimes the report of a ball or a wedding costs \$300 or \$400 for every newspaper it appears in. The following standing announcement concerning what is known as the "agony column" will be found

in the London papers: "All society, personal and fashionable paragraphs, except those relating to royalty and official incidents, will be charged for at a minimum rate of one guinea for two kines, each succeeding line ten shillings and sixpence addi-

THE CONVENT FIRE.

Four Persons Were Killed, Two Are Miss ing and a Number Injured-Nine of Ten Buildings Burned.

PARKILL, N. Y., Aug. 20 .- The fire morning destroyed nine of the terbuildings of St. Agnes convent and orphanage, entailing a loss of \$150.000. Two persons are missing.

Twenty-five inmates were injured by nature of their injuries. The skulls of falls, jumps and burns, none seriously, the unfortunate men were crushed. The escape of Sister Agnes seemed almost a miracle. She was cut off on the fourth floor and elected to jump from her window rather than plunge into the furnace that had once been a stairway. She climbed out on the sill and then seizing the shutter swung out clear of the building. Then she loosened her hold. She struck the ground square upon her feet and then fell over on away unhurt.

FIVE MEN INTURED.

Casting Wieghing Twenty-Seven Tons on the Crane, Fell in the E. P. Allis Works in Milwaukee, Wis.

MILWAUKEE, Wis., Aug. 29.-Whi.e at work hoisting one of the immense castings for an engine bed for the Metropolitan Street Railway Co., of New York, five men were seriously injured at the foundry of the E. P. Allis works shortly before midnight Monday.

The men had raised the casting weighing 27 tons from the mold while three below were at work "dusting" it. This task accomplished, the signal was given for the two cranemen, Nieman and Dooley, to return to their cages on the crane, where the engine for hoisting is located, when the entire structure gave way, throwing the cranemen to the ground and burying their companions beneath. The men were extracted with difficulty. The loss to the Allis works, in addition to the immense damage done the machinery, will be especially severe, and it will delay all casting of large work in the foundry for several weeks and perhaps months. This will mean a loss of thousands of dollars.

Entire Party Drowned.

DARDANELLE, Ark., Aug. 29 .- About seven miles below here a party of Negroes, consisting of Mrs. Caloin Jack son and two children and Mrs. John Smith, with three children, and Louis Price, a grown man, were crossing the river in a skiff, when from some unknown cause the boat capsized, drown ing the entire party.

It is Sought to Control All the Mills in the Coun ry on a Capitalization of One Hundred and Fifty Millions.

G. Greene was here Monday representng a syndicate of New Yorkers who seek control of the cotton mills of the country on a capitalization of \$150,000,-000. He declines to give his offering prices, but asks the mills to send a committee to New York to receive the details of the bids from the men who are organizing the syndicate.

Bankers who were in session here Monday morning with Mr. Greene were told that local banking interests would not suffer by a trust such as he proposed, for local management and local panking would be a part of the plan.

However, they failed to capture the permanent organization and Caleb Cushing, of Massachusetts, was made chairman. He was not a Douglas man. The convention had more trouble than our recent ties. J. From the Times, Hillstille, Va. I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up, all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoa Remedy and also some testimonials stating how some wonderful cures had wrought by this remedy, I decided to try it After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man to-day and feel as well as I ever did in my life .- O. NEWS IN KENTUCKY

A SHOOTING AFFRAY.

Pitched Battle on the Streets of McKee -Senator William Clark Shot Three Times.

LONDON, Ky., Aug. 29.-Reports from Jackson county say late Saturday evening, at McKee, a pitched battle took place between two of the wealthiest families in southeastern Kentucky. The fight was between James Hayes and his four sons on one side, and Senator William Clarke, Sherman Leadford and others. The battle occurred on the streets. Senator Clarke was shot three times. There is no hope for his recovery. One of the Hayes boys had the contents of a double-barreled shotgun emptied into him. He will die.

Rad blood had existed between the families for a number of years. Clarke is the present senator from the Seventeenth senatorial district. It is feared this will develop into one of the worst feuds in the mountains.

THIS CAT REFUSED TO DIE.

How an Intelligent Pussy Put a Stop to a University Professor's Demonstration.

Students of one of the big universities in this city have a cat that has utterly refused to become a martyr to science. Its history is another instance of the refining and elevating influence of science, says the Chicago Times-Her-

Prof. Blank asked J. P. Morgan, the janitor to get a cat for him, as he wished to illustrate his lecture on "Respiration" by experiments upon the animal. Mr. Morgan succeeded in getting one with the aid of some small boys. When his students had assembled the professor put the cat into the glass receiver of the air pump and began to pump out the air. Before the piston had time to move more than once or twice the cat began to feel very uncomfortable, and, discovering the aperture through which the air was escaping, put her foot on it and thus corked the pipe and stopped the removal of the air.

Several subsequent attempts to carry on the experiments were alike ineffectual, for as soon as the glass cover was put over her and she felt the removal of the air the cat would put her feet over the pipe and keep them pressed there.

The students, struck by the remarkable intelligence shown by the cat, asked the professor to liberate the animal and loudly cheered her self-possession when the cat, after coolly cleaning herself and smoothing her ruffled fur, jumped down and rubbed against the legs of the students sitting on the front bench. She is now permanently annexed to the college and an object of interest to all visitors.

PLEA FOR THE CODFISH.

A Chief Cook Says This Fish is Not Appreciated at Its Real Worth.

"If codfish cost a dollar a pound," said the chef, "it would be more universally beloved. I tell you, it is the best dinner fish known. I have tried the whitefish all over the world, but the codfish is king of them all and is not appreciated at his real worth. Cook him in any way you like and he is delicious. Even the dried codfish, picked up and served in cream for breakfast, is a fine dish. Put him in a bag, sew him up tightly and let him boil, or bake him carefully, well stuffed, and he is

delicious. "Let me tell you that when you make fishcakes you should not drown out the fish with potato. Put as little potato or other substance in the cakes as possible, and, if you want them as fine as they can be made, wrap them in a blauket of eggs and do not be sparing of the egg. You can make a tasty dish of codfish cakes if you will follow my advice. Fish cakes are considered a very democratic dish, of course, but my patron, who pays me a large salary, is as democratic as he used to be in his younger days. RATTLESNAKE EATER.

Georgia Negro Who Captures and Sells the Reptiles Sometimes Makes a Meal of Them.

Moses Henderson is a sable son of Africa and lives two miles from Americus in a rocky field where rattlesnakes are most plentiful, says the Savannah News. Moses makes a living by capturing snakes and selling them. This is the truth, strange as it may seem. One day lately he killed a large one with 11 rattles on it. This was a fat snake and Moses ate it. The other day he brought a very large snake to the city, trying to sell its hide. There were 23 rattles on it. The snake was very poor, and Moses said it would not do to eat, and he stuffed its hide and sold it for a good price. Every year Moses makes a good deal of money selling snake oil. He says right down the vertebrae of a rattlesnake is a fatty treak of flesh that makes an oil, when fried, that will cure any case or rheumatism. It is strange to how make people he sells this rheumatic snake of He has a long list of certificates from people he has cured. Some of them are from intelligent whites, who declare that the oil has cured them when all other remedies have failed. He sells a vial of the oil for one dollar and guarantees a lasting cure.

Moses says his father was an African goodoo doctor and taught him how to cure all aches and pains with snake oil. The negroes of Sumter county ven erate and fear him as a mysterious doctor who can cure when all else fails, and look upon his snake oil as something enchanted.

THE INDIAN TERRITORY.

Missouri Woman Suggests That When It Becomes a State It Shall Be Called Jefferson.

Mrs. Robert H. True, of Clinton, Mo. writes to the St. Louis Republic suggesting that when the Indian territory shall become a state it be admitted to the union under the name of Jefferson. She savs:

"I have made the suggestion to several prominent citizens of the territory in my recent rip through that important section, and they view the proposed name of Jefferson with enthusiasm. They think it would be acceptable to the entire territory thus to honor the memory of Thomas Jefferson, under whose direction the Louisiana purchase was made. Jefferson's name forever associated with the history f the central state.

"Since the purchase of the original territory of Louisiana in 1803, many tates have been formed, numbers of which have been named for individuals who have achieved greatness. No state has been named in honor of Jefferson, who opened and closed the negotiations for the purchase. The only remaining portion of the purchase in the union is the part known as the Indian territory. Progress will demand that a state be formed of this territory.

"The only opportunity of honoring Jefferson by naming a part of the origdian territory 'Jefferson' when it is made a state."

ROCKING BEAUTIFIES WOMEN.

How an English Scientist Accounts for the Symmetry of American Limbs.

The rocking chair, according to an English scientist over here for the purpose of writing a book of travels, deserves even a higher place in American esteem than it now holds, for it is responsible, this eagle-eyed observer claims, for one of the greatest beauties of the American women, the beauty of her lower limbs, says the Philadelphia Record. "If you will think," he said at a dinner party the other night at Atlantic City, "if you will think of the exercise one gets on a rocking chair, you will see that I am right. How many times, on these broad, windblown piazzas, does a young woman rock herself in her chair in the course of a morning? In fancy it would take a calculating barber to tell you that. At any rate, the exercise she gets is excellent and ample. That push which the toes gives to keep the chair in motion, repeated and repeated, makes the instep high, the calf round and full. and it keeps misshapening flesh off the ankle, keeping the ankle delicate and slender. Such delicate ankles under such robust calves made me fear, when I first came down and saw your women in their bathing dresses that the pneumatic stocking, so popular in my own land, had gotten a foothold here. am convinced now that it is not so."

Where It Rains Forever. You can expect a shower at Panama,

says a correspondent in the Chicago Record, about three o'clock every afternoon during the rainy season. The rest of the day and evening after six o'clock is delightful, and no one thinks of carrying an umbrella, but at Colon it rains all the time, and, according to the old proverb, it never rains but it pours. It is the real thing by the bucketful. It seems as if the bottom had dropped out of the sky. Colon and Panama are 47 miles apart. The rainfall at Panama is about 92 inches annually, or about eight feet. The rainfall at Colon is 250 inches annually, or about 21 feet, and the people get it all in five months, an average of four feet a month precipitation, while in Arizona they only have a few inches. It takes all the rest of the year for the people (a. 9 50 to get dry.

Modern Fable.

A general who was conducting a war in a distant island wrote to the agricultural department of his government to ship him a ton of acorns. When asked what he intended to do with them he replied:

"There is no shade in our trenches, and the troops suffer from heat. A growth of large oaks will add much to the comfort of the men in the firing line."

He would have said more, but his attention was arrested by a burst of song from a neighboring jungle.

"Ah," he sighed, "that is a round robin!" And he walked sadly away.—San Francisco Examiner.

Rule That Works Both Ways.

"I have frequently observed," said the vegetarian, "that when a man lives on beef he becomes something like an ox; if he eats mutton he looks sheepish, and if he eats pork the chances are he will grow swinish." "Perhaps you are right," said the turtlefed alderman. "I have also observed that when a man lives on nothing but vegetables he is apt to be pretty small potatoes."—Chicago Evening News.

A Letter to Mrs. Pinkham Brought Health to Mrs. Archambo.

[LETTER TO MRS. PINKHAM NO. 42,395] "DEAR MRS. PINKHAM-For two years I felt tired and so weak and dizzy that some days I could hardly go around the house. Backache and headache all the time and my food would not digest and had such pains in the womb and troubled with leucorrhea and kidneys were affected.

"After birth of each child I grew weaker, and hearing so much of the good you had done, I wrote to you and have taken six bottles of Lydia E. Pinkham's Vegetable Compound, one box of Lozenges, one box of Liver Pills, one package of Sanative Wash, and today I am feeling as well as I ever did. When I get up in the morning I feel as fresh as I did when a girl and eat and sleep well and do all of my work. If ever I feel weak again shall know where to get my strength. I know your medicine cured me."-MRS. SALINA ARCHAMBO, CHARLEMONT, MASS.

The present Mrs. Pinkham's experience in treating female ills is unparalleled; for years she worked side by side with Mrs. Lydia E. Pinkham, and for sometime past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women a year. All women who suffer are invited to write to Mrs. Pinkham at Lynn, Mass., for advice, which will be promptly given without charge.

"For six years I was a victim of dyspepsia in its worst form. I could eat nothing but milk toast, and at times my stomach would not retain and digest even that. Last March I began taking CASCARETS and since then I have steadily improved, until I am as well as I ever was in my life."
